

## Manual for the chairperson

You are organizing a conference call with newConference. Follow the simple steps below and start your meeting without any problems.

### Step 1: Register for a pin code

Request a free pin at [www.newconference.eu](http://www.newconference.eu) (menu: OneDay → Do it now → Order free code here). You will receive a pin code for the chairperson and a conference code for the participants by e-mail.

### Step 2: Inform the participants

Provide the following information to all participants:

- ✓ the starting time (and date) of your meeting.
- ✓ the phone number of newConference: +31208510260.
- ✓ the conference code

*The number of participants is not limited. Registration of participants is not required.*

### Step 3: Start your meeting

- ✓ At the agreed time dial +31208510260.
- ✓ Enter 2 to start the meeting or 3 to start a recorded meeting.
- ✓ Enter your pin code followed by the hash/pound key (#).

### Free extra features

NewConference is offering a number of free functions that make conferencing simple and convenient.

### International access numbers

NewConference has local dial in numbers in 11 different countries available (see [www.newconference.eu](http://www.newconference.eu)).

### Recording the conference call

Conference calls can be recorded free of charge. The chairperson can start recording in two ways:

- a) by choosing 3 instead of 2 during the set up process
- b) by selecting "Start recording this conference" in the Control Panel during the conference.

After the conference is finished the recording can be downloaded at [www.newconference.eu](http://www.newconference.eu).

### Phone enabled functions

By entering the [\*] key of your phone during a meeting you will get an IVR-menu that offers some convenient features:

- [\*] 1 Microphone on/off
- [\*] 2 Block/unblock conference for further participation
- [\*] 3 Remove last participant from conference
- [\*] 4 Decrease speaker volume
- [\*] 6 Increase speaker volume
- [\*] 7 Decrease microphone volume
- [\*] 9 Increase microphone volume
